RE: WIA response to ACMA Consultation: Proposed changes to the Amateur Service (2019)

To whom it may concern,

Our club, Amateur Radio New South Wales, is one of the oldest Amateur Radio organisations in the world, with origins dating back to 1910 and continuous incorporation since 1922. ARNSW currently represents over 500 Amateur Radio operators predominately in the state of New South Wales, as well as interstate and overseas members.

This letter is to confirm that the submission made by the Wireless Institute of Australia on behalf of its members, is also joint submission with ARNSW. The submission includes input from various members of our organisation and it has our support.

Kind regards,

Mathew Magee VK2YAP
President, Amateur Radio New South Wales
